

The Can Height Gauge provides precise, repeatable measurements that are recorded in the SeamMate® System.

Features

- Simple can placement on base by operator
- Precision measurement for all can sizes
- Simple, repeatable gauge zero
- Directly interfaces with SeamMate System

Specifications

- Zodiac Quartz Base
- Base dimensions = 12" x 14"
- Overall Accuracy +/- 0.002 inches
- Linear Measurement Resolution = .0005 inches/.01 mm
- Can Height Range from 0-12 inches
- Automatic Measurement Recording
