

Superb distortion-free cross sections ideal for seam imaging.

- Quiet
- Safe
- Automatic Cuts
- Automatic Slot Prep
- Clean Seam Images

#### Model 590 New Features & Improvements

- Pneumatic can clamping & release
- Full-front access for easy cleaning and blade changes
- Maximum can height increased
- Indestructible blade safety cover
- Safety Interlock Monitoring System for improved operator safety
- Added component durability and efficiency

The Automatic Seam Saw provides a safe and quiet cutting operation. It produces superb, distortion-free cross sections that are ideal for seam imaging.

## Features

- Precision cuts for clear seam images
- Microprocessor-controlled can feed and tab bending
- Microprocessor-controlled blade speed for distortion-free images
- Noise level under 80 dB
- Universal and automatic can clamping
- Fast cycle time
- Safe, contained cutting
- Safety Interlock Monitoring System for added operator safety
- Full-front access door for easy cleaning and blade access
- Measure-ready can slot

## Specifications

- Corrosion-resistant stainless steel and high density polyethylene
- Accommodates 200 to 603 steel, beverage and composite cans
- Dimensions: 22.5" W x 19.5" D x 18" H
- Weight: 145 lbs.
- Power requirements: 120 VAC 60 Hz
- Clean compressed air: 80 PSIG at 2 CFM peak
